

Where to find traders, layouts and everything else...

You will note the Main Hall diagram is divided into four coloured areas, this has been done to enable you to find traders/exhibitors more easily - look for the flags!
On the list of traders (pp 13 and 16), the trader's stand number is denoted by a capital letter and then a number i.e. R17 for example.
R = Red, G = Green, Y = Yellow, and B = Blue. So any trader with a stand number starting with the letter G, will be in the Green area of the Hall.
Those with a letter A in front of the number are located in the Atrium.

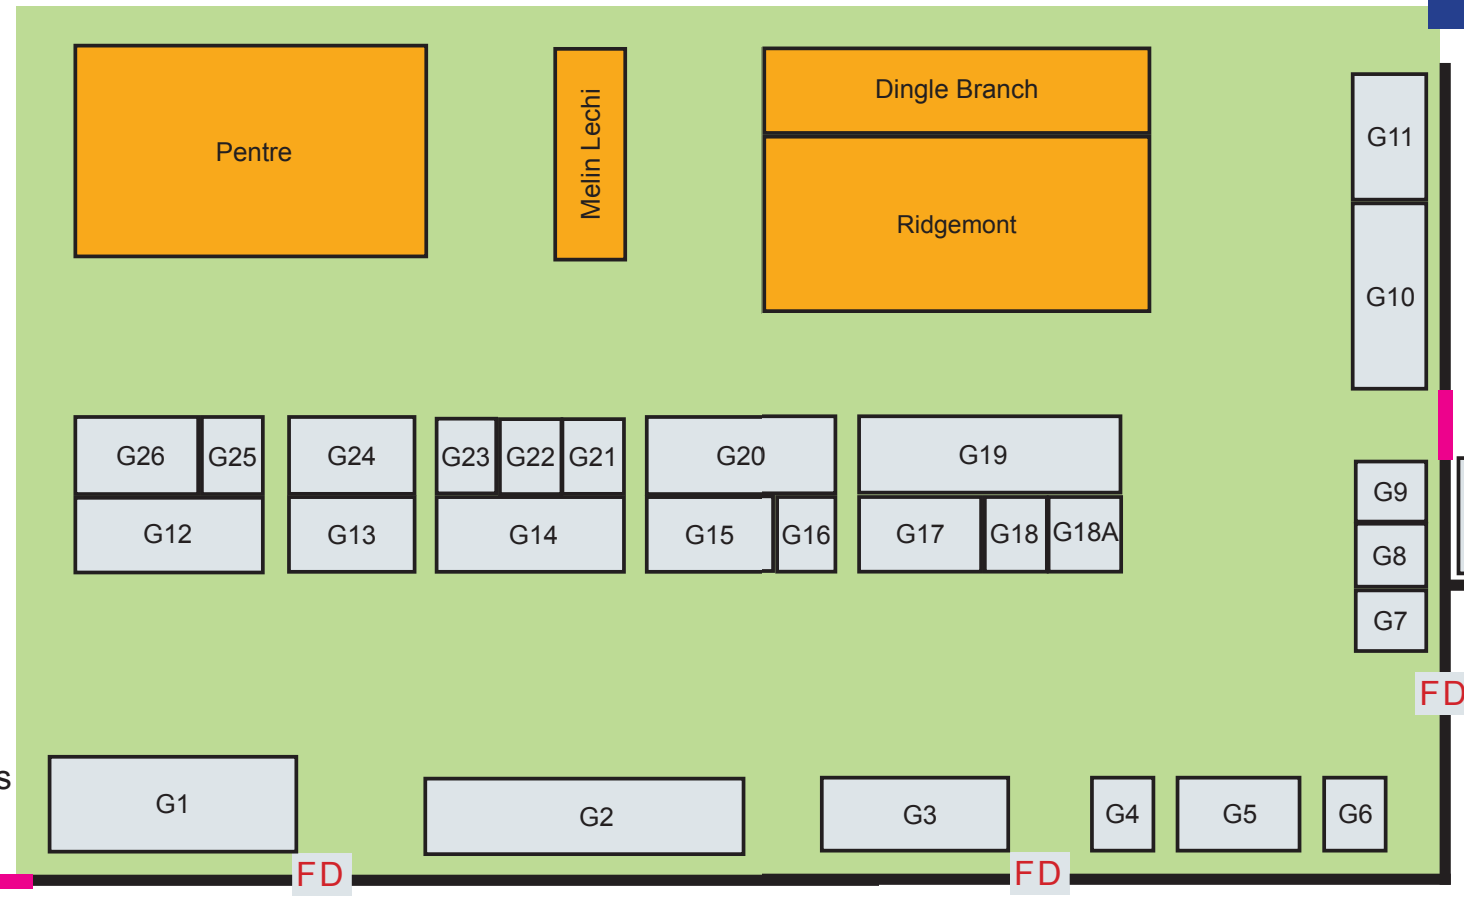

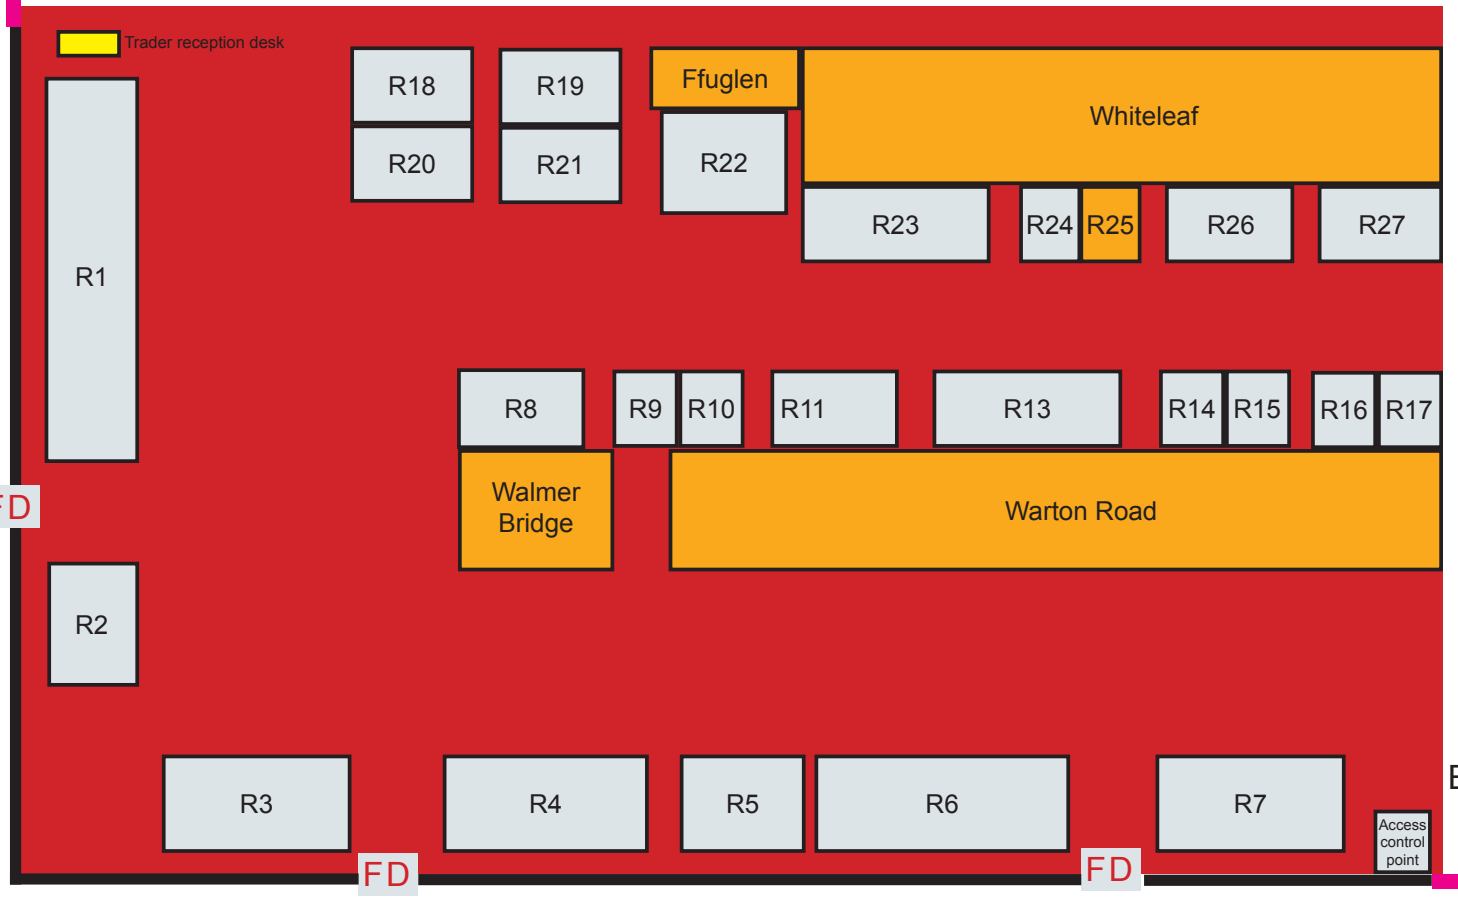

Association Merchandise

Market Street Y28

Show you belong with a range of Association branded goods, including Enamel Mugs, Scale rules, Bags, Badges, Brollies & more!

Limited Stock - come early to avoid disappointment!
